## FIRE AND BURGLAR PROOF.

The Large New Safe of the Greensboro Loan and Trust Co.

One of the finest fire and burglar proof safes ever brought to North Carolina, or any other state, has just been placed in the bank of the Greensboro Loan and Trust Co. It is a mammoth affair, weighing about ten thousand pounds, made by the Mosler Safe Co. It has screw door and time locks, and is as secure as earthly things can be made. There are only two others like it in the state.

This safe stands about 6 feet high, 45 inches wide and 40 inches deep. The outside is in the shape of an ordinary safe, made of the best fire-proof material, with double doors and combination lock. Inside of this is the burglar proof part, made of chrome steel, several inches in thickness, which is provided also with both combination and triple time locks, with screw door, which forms an impenetrable barrier between the burglar and his would-be prize.

The door of the inner safe is round and is ground into place to so perfectly fit as a glass stopper in a bottle. Attached to the door is a large screw thread which screws into another thread fastened inside the safe and the door is screwed into place by a lever through the medium of cogwheels. This screw door fits so perfectly that it must be kept clear of all particles of dust in order that it may be turned to the locking point. Kerosene oil will not penetrate its crevices, so perfect is the fit. No explosive fluid can be forced into it. There is no communication between the outside combination and the inside time locks to the inner safe.

The Greensboro Loan and Trust Co. are now as well equipped as any bank in the country for taking care of money and valuables. They have also provided a number of private deposit boxes, which are for rent.

The November Archive is out, and is an interesting number. The table of contents is:

Last Saturday evening, Prof. Benjamin F. Sladd, of Wake Forest College, delivered an address in the college chapel on the general subject of literature and its relations to life and culture. This was one in the regular course of Saturday lectures, begun a year and a half ago and delivered once a month by instructors at the college and other speakers. The next lecture in the faculty series will be delivered by Dr. J. I. Hamaker.

An addition to the number of residences to be occupied by instructors and officers of the college has been made, in the form of a neat cottage, located in the place just beyond the gymnasium and now nearing completion.

A large force of hands has been at work on the park for some time, and great improvements have been made. A considerable portion of the campus is now set in grass, and other plots have been sowed. The fence and grandstand at the athletic field have been painted. The boulevard which is to cross the front part of the campus, has been surveyed.

President Kilgo and Prof. P. T. Durham are in Concord, attending the session of the Western North Carolina Conference.

## SOUTH AFRICAN WAR.

Reinforcements Wanted at Mafeking —Potatoes 40 Shillings Per Barrel.

By Cable to THE TELEGRAM.

Queenstown, Cape Colony, Nov. 25—Four hundred colonial rebels, including Mr. Munex, a former magistrate of Barkley, have joined the Boers at Barkley. It is reported the Boers are marching from Barkley on Dordrecht. It is feared there will be a general movement in the Queenstown district in favor of the Boers.

MORE TRANSPORTS CHARTERED.

London, Nov. 25—The government has chartered three more transports to convey troops to South Africa.

## SITUATION AT LADYSMITH.

Durban, Nov. 25—An official message from White, dated 22nd, says the situation at Ladysmith is still unchanged.

## AT MAFKING.

Cape Town, Nov. 25—A Mafeking dispatch, dated 13th instant, says reinforcements are desirable. Exorbitant prices are demanded for all food stuffs. Potatoes, which before the siege sold at from twelve to twenty shillings, are now quoted at forty shillings per barrel. The natives report the British approaching in such force that they look like ants, and that they have big sky bags (balloons). It is believed the Boers were prompted to the latter report in order to induce overconfidence in the Mafeking garrison.

## THE CITY FATHERS.

Important Matters Were Discussed by the Board Last Night.

The city board of aldermen met last night in regular session, Mayor Taylor in the chair, and the following members answered the roll call: Elam, Hunter, Merrimon, Merritt, Phillips, Sergeant, Denny, Wright.

Col. John A. Barringer and other citizens appeared before the board and requested the widening of Ashe street from Lee to West Market streets, and the grading, curbing and macadamizing of the same. The matter was referred to the street committee to investigate and report at next meeting of board.

W. C. Boren, chairman of the board of county commissioners, asked that the city make arrangements so that the new jail can be connected with the sewer. Alderman Hunter moved that the jail be given sewerage under plans heretofore adopted by the board. Motion carried.

John N. Wilson asked that the American Telephone and Telegraph Company be given a franchise to operate a phone system in this city.

Alderman Hunter offered an ordinance identical with the one passed at a board meeting in December last, granting a franchise to said company. Alderman Elam moved that the matter be referred to the street committee to hear arguments relative thereto and report at the adjourned meeting on next Friday night, which motion was carried.

The ordinance passed at the last meeting of the board ordering the issuance of \$35,000 in bonds for a city hall and market, was called up and passed its second reading.

The ordinance for the prevention of fires, inspection of buildings, etc., which had been referred to a special committee, was discussed by the board, the committee having failed to agree. Alderman Hunter moved that three members of the board be added to the firemen's committee and that this ordinance be referred to that committee for action, and that the local insurance men be invited to attend the committee meeting. Motion prevailed.

J. R. Fentress, through his attorney, Maj. Stedman, filed a claim against the city for \$100 for destruction of clothing and household goods by order of Dr. Ledbetter during the late smallpox unpleasantness. Matter was referred to the city attorney to report at the next regular meeting of the board.

Wiley Alston, colored, was granted permission to sell fresh meats at corner of Maple and Lindsay streets, outside the old incorporate limits.

Board adjourned to meet next Friday night.

## IN AN ENVIABLE CONDITION

South Carolina Farmers are Enjoying Prosperity.

## THE N. C. REPRESENTATIVES

In Congress Will Vote for Republican of Tennessee for Democratic Speaker.

Special to THE TELEGRAM.

Washington, Nov. 25—Senator McLaurin, of South Carolina, has returned to Washington for the session of congress. The South Carolina senator is one of the few senators from the south who uphold the course of the administration in its dealing with the Philippine problem. He will, during the coming session, continue to support President McKinley in his foreign policy. The senator, it is said, looks upon the coming session as being a most important one, and aside from the Philippine question, there will be many problems to be brought to the attention of congress.

Senator McLaurin says that in common with other sections in the south, the state of South Carolina is sharing in the prosperity which seems to be general all over the union. He says that not only are the cotton factories paying handsomely, but the cotton planters are doing better than they have done for a long time. Early in the year they did not realize that the cotton crop would bring more than five cents at the most, but the senator says in his state they are getting seven cents. The farmers of the state, says the senator, through the rigid economy which they have been practicing for the past five or six years, are comparatively out of debt, and many of them have succeeded in laying up some money in the banks, many of them having quite a snug little sum. Altogether the southern section of the country is enjoying more prosperity than for several years past, and is in a most enviable condition.

The senator will remain in Washington until the convening of congress. He is stopping at present at the Metropolitan Hotel, where he will remain until he has re-established himself in permanent quarters.

The friends of Representative Richardson, of Tennessee, do not agree with the friends of Congressman Bankhead, in their estimate regarding the southern vote in the democratic caucus. In regard to North Carolina, in which Bankhead's friends claim that he will get the entire North Carolina delegation with the exception of Mr. Crawford, Mr. Richardson's friends say that this is a big error, or else they are mistaken in their calculations. They say that not only will not Mr. Bankhead get so large a vote from North Carolina, but that the majority of the delegation will be for the Tennesseean. The big Tennessee representative is at the Metropolitan hotel, and is constantly surrounded by his friends and supporters. The Metropolitan is not the home of the congressman, but he has established his offices there, because it is a more central location for the members who wish to consult with him. Mr. Richardson insists that he has not opened headquarters in the true sense of the word, but that he only has an office at the Metropolitan. Nevertheless, the friends of Mr. Richardson about the Metropolitan are doing considerable hustling for their favorite, who aspires to the democratic nomination for speaker.

Congressman Sulzer, of New York, outside of New York and New Jersey, apparently has but few friends, and in spite of his big claims, according to the outlook will not come anywhere near securing a majority of the democratic caucus. When the house has been under the control of the democracy, in late years, it has been generally recognized that the south, which furnishes the bulk of the members of the caucus, is entitled to the speakership. The southern members claim that the section is now entitled to the democratic leadership, especially as the speakership of the house is the highest office to which the south under present conditions can aspire.

Ex-Senator Blackburn, of Kentucky, is in the city and will be here for a few days. The ex-senator says that the result of the vote for the speakership will not be determined before the 4th of December, upon which day the state board meets to canvass the returns of the election.

The board is composed entirely of democrats, and the ex-senator has no doubt but they will issue the certificate to Goebel. He says that the talk of inaugurating Taylor, if Goebel is given the certificate, is the rankest kind of nonsense.

Other Kentuckians say that if Goebel is given the certificate, that the fight will be carried into the campaign of next year, and that the chances of Bryan carrying the state will be very small.

Ex-Senator Blackburn says that the legislature is safely democratic, and that he will be returned to the senate.

Representative Thomas, of North Carolina, has returned to Washington. He will remain here until the assembling of the house of representatives.

Mr. Thomas says that politics in his section of the state are very favorable to the democracy, and he looks for a big vote on the constitutional amendment and for its passage by a very large majority.

**D. BENDHEIM & SONS**  
230 South Elm.

They are noisy but they are nice. Who would exchange the merry noise of children at play for the childless home after the clock tick can be heard hour after hour in the dull silence? But there are a great many who would like to see a childless home with the children who are so happy. Fate is often kind. Many a glad mother dates her happiness from the day she first began to see Dr. Pierce's Favorite Prescription. It often happens that with the cure of female weakness and the establishing of the delicate womanly organs in sound health, the way is opened for the joy of motherhood. "Favorite Prescription" is a specific for the delicate ailments peculiar to women. It cures them perfectly and permanently. No other medicine can do for women so much as "Favorite Prescription." Do not therefore let any other medicine be palmed off on you as "just as good." "Favorite Prescription" contains no alcohol or other harmful ingredients. It is strictly a temperance medicine.

"I had been a sufferer from female weakness for about three years and the doctors that I went to had failed to cure me. When about a year ago I saw an advertisement of Dr. Pierce's medicine and thought I would give it a trial. I bought a bottle and after taking it for a few days I began to feel better. After taking four or five bottles I was cured. I have not had a day of sickness since. My complexion often suffers because of poisonous accumulations in the system. Dr. Pierce's Pleasant Pellets remove these accumulations and cleanse the complexion. They regulate the stomach, liver and bowels."

#### 10,000 ACRES OF IRON ORE.

**Leased in Ashe County to Pennsylvania Steel Company.**

Winston-Salem, Nov. 24.—Ten thousand acres of magnetic iron ore land were leased Wednesday in Ashe county, by Philadelphia parties, representing the Pennsylvania Steel Company, the Cambria Steel Company and others. This embraces the famous Ballou Home Place bank, which realizes 97 percent. Several thousand dollars cash were passed, and the royalty agreed upon was 25 cents per ton. Experts state that this is the greatest and finest deposit of magnetic ore in the southern states.

The companies above mentioned, it is understood, have arranged to build a railroad at once. It is thought the extension of the Norfolk & Western from Chestnut Yard, Va., is the one contemplated, though the parties themselves intimate that by agreement both the Southern and Norfolk & Western may figure in it, and the Southern road be extended from Wilkesboro to Bristol.

Todd & Pell, attorneys at Jefferson, have closed a deal for Pennsylvania capitalists for the Gambill copper mine, located about 6 miles from the Ballou mine. Work will be commenced at once in raising ore, which will be transported by wagons until the proposed railroad lines are built.

Miners are now at work on the once renowned One Knob copper mine which closed down because of the low price of copper some years ago. Mr. James E. Clayton, of Baltimore, owns this property, but a New York syndicate will probably purchase it.

Zime & Bach, capitalists of Milwaukee, Wis., who have been operating in the western end of Ashe county, have finally taken up their option and paid the money for the Elk Knob copper mine. This same firm has purchased 20,000 acres of the finest land in that section and various rumors are afloat as to their intentions.

**Prevented a Tragedy.**  
Timely information given Mrs. George Long, of New Stratford, O., prevented a dreadful tragedy and saved two lives. A frightful cough had kept her awake every night. She tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles free at C. E. Holton's drug store.

#### The Death of the Flowers.

The melancholy days have come, the saddest of the year, of wailing winds and naked woods and meadows brown and bare. Heaped in the hollows of the grove the autumn leaves lie dead; they rustle to the eddying gust and to the rabbit's tread. The robin and the wren are flown, and from the shrubs the jay, and from the woodtop calls the crow through all the gloomy day.

Where are the flowers, the fair young flowers, that lately sprang and stood in brighter light and softer airs, a beautiful sisterhood?

Ah! they are all in their graves; the gentle race of flowers. Are lying in their lonely beds with the fair and good of ours. The rain is falling where they lie; but the cold November rain calls not from out the gloomy earth the lovely ones again.

The windflower and the violet, they perished long ago. And the briar rose and the orchids died amid the summer glow; but on the hill the golden rod and the aster in the wood, and the yellow sunflower by the brook in autumn beauty stood.

Till fell the frost from the clear, cold heaven, as falls the plague on men, and the brightness of their smile was gone, from upland, glade and glen.

And now, when comes the calm mild day, as still such days will come, to call our squirrel and the bee from out their winter home; when the sound of dropping nuts is heard, though all the trees are still, and twinkle in the smoky light the waters of the rill, the southward searches for the flowers whose fragrance late he bore, and sighs to find them in the wood and by the stream no more.

And then I think of one who in her youthful beauty died, the fair meek blossom that grew up and faded by my side, in the cold moist earth we laid her, when the forests late we laid her, and we wept that one so lovely should have a life so brief; yet not suspect it was that one like that young friend of ours, so gentle and so beautiful, should perish with the flowers.

—William Cullen Bryant.

"Did any one call while I was away?" asked Mrs. Buggins, who had just returned from a visit to her mother's. "Yes; Jack Felt called with three acorns, when I held—um—I mean, my dear, that just a few friends of mine dropped in last evening."

#### CHARLESTON A TOTAL WRECK

**No Hope for Saving Even a Part of the Cruiser.**  
Washington, Nov. 23.—After receiving a dispatch from Captain Luttrell, commander of the United States naval station at Cavite, the navy department today gave up hope of saving the cruiser Charleston.

The disaster was as follows: Charleston wrecked November 13, 1904, on a reef 13 miles from Cavite. Three unsuccessful attempts to get near her. Heavy typhoon since. Expect Calgoa with later news. Officers and crew all saved and well.

## AT THE NORMAL.

### The General Condition of the Sick is Gradually Improving.

There is thought to be a slight improvement in the general condition of the sick at the State Normal and Industrial College this afternoon, though two or three of the young ladies are reported no better.

A telephone message received here this morning announces the death of Miss Susie Irie, which occurred at her home in Leaksville, at 10 o'clock last night. Miss Irie was a student at the State Normal and Industrial College, and among the first to contract the fever at the college. Her brother, D. W. Irie, of Leaksville, attended her during her illness at the college, and carried her to Leaksville about two weeks ago. The burial took place at 3 o'clock this afternoon. Miss Irie was a lovely young woman, and her death will be greatly deplored. The bereaved ones have the heartfelt sympathy of the entire community.

Miss Grider, who has been one of the patients at the Normal for several days, was carried to her home at Charlotte last night. She is very much improved. Her father and mother were with her.

Prof. J. L. Ludlow, the expert civil engineer, who has been inspecting the sewerage system at the Normal, left last night for his home at Winston. He will present a report to the meeting of the board of directors of the institution next Monday.

Dr. Richard H. Lewis, of Raleigh, secretary of the state board of health, arrived at noon today and is out at the Normal this afternoon inspecting the institution.

The Baltimore made Goodyear Welt ladies shoes sold for \$2.75 at Thacker & Brockmann's, are making a great hit. Sewed like men's shoes, they are stout and serviceable, yet are pliant, flexible, feel good on the foot; in fact they possess just about all the good points that can be combined in one shoe. They come in various styles and shapes, lace and button.

## Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. Geo. D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a godsend to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cents. Sold by C. E. Holton, druggist.

The young wife's ideals begin to be shattered when she sees her husband put his feet on the best chair.

## The Poet Burns.

Not the least of the advantages attending life assurance is the serenity of mind which attends the provident man lying on a bed of sickness, or when he is in prospect of death—so unlike that painful anxiety for the future welfare of the family not provided for. The poet Burns, in writing to a friend a few days before his death, said that he was "still the victim of affliction. Alas! Clark, I begin to fear the worst. Burns' poor widow and a half a dozen of his dear little ones, helpless orphans; there, I am weak as a woman's tear. Enough of this, 'tis half of my disease!"

"If you would escape the rock upon which the lamented Burns split," take shelter from the storm that is bound to spend its fury upon you when the fatal summons comes, by at once securing the magnetic contract offered by the Provident Savings.

## A Remarkable Woman.

There is living in the neighborhood of Pleasant Garden, this county, an old lady whose eccentricities are indeed remarkable. She is 87 years of age and is Mrs. Nancy Hodgkin, widow of the late Dick Hodgkin. Without any apparent reason she stopped eating supper about 25 years ago, and since that time has eaten only two meals a day. She hasn't tasted water in over twelve years, and hasn't left her plantation in about twelve or fifteen years. Notwithstanding the fact that lamps are very cheap, she still uses an old-fashioned tallow candle, and has never had a lamp in her house. She is enjoying good health and is able to attend to her household duties. She is very fond of smoking her pipe.
